ABOUT ERIK KAJLERT

Erik joined Zacco in 2002. He is a European Patent Attorney working primarily with patent drafting, patent prosecution and investigations.

Erik's fields of expertise are mechanics, mechatronics, electronics and physics. His work has been mainly in the areas of vehicles, energy development, and mechanical engineering. Erik has vast experience from the automotive field, where he has been Key Account Manager for major clients, and has drafted a great number of applications covering a wide range of technical areas within that field.

Erik graduated with a Master of Science degree in Physics from Umeå University in 1996. From 1996 to 2001 Erik worked as a project leader for an international fusion energy project (ITER) in Munich, Germany, under a contract with the European Union.

AREAS OF EXPERTISE

Services

Patent Drafting
Patent prosecution
Forward Patenting

Technical field

Electronics
Physics
Mechanical Engineering
Mechatronics
Sensor and Measurement Technology

Industry expertise

Aerospace & Defence
Automotive
