ABOUT MIKAEL HELGESSON

Mikael has a long experience from the IT consultancy industry and has held different sales and management positions, in successful growth companies. With his experience within the area and an extensive network of potential new clients and co-workers he will be a great foundation for expanding the range of services within Zacco. He has a consistent track record of successful sales and business development, creating long-term customer relationships with the focus of always delivering customer value.

He holds a Bachelor of Software Engineering and Management which has been complemented with various management and sales educations.

Most recently, Mikael comes from ÅF Technology as Market Area Manager, where he was responsible for the IT Solutions operations in the region of Gothenburg.
