ABOUT KELD THYREGOD

Keld started his IP-career by joining Zacco in 1999. Later he has been working as Patent Manager within the wind industry and as Patent Attorney and Co-Owner in another IP company. He re-joined Zacco in 2017. In the start of his career as an engineer, Keld worked as an R&D engineer in the expansion joint industry.

Over the years Keld has been working with a wide range of IP-related matters and he has gained a comprehensive technical expertise in mechanics, composites, Wind Turbines and in wind energy in general – just to name a few areas.

Keld graduated as a mechanical engineer from Aalborg University, Esbjerg in 1995, specializing in control & regulation and in welding and metal working. Keld also holds a journeyman's certificate as wood machinist.
