ABOUT SEPIDEH GORJI GHALAMESTANI

Sepideh has been working with IP since 2016. She works with drafting, prosecution of patent applications, novelty searches, and patent oppositions. Before joining Zacco in 2021, Sepideh worked at another IP company in Sweden.

Sepideh holds a joint Masters of Nanoscience and Nanotechnology from KU Leuven University in Belgium and TU Delft University in Netherlands. She has a PhD in Engineering from Lund University in Sweden. Before joining the IP field, Sepideh worked as a researcher at Lund University. Her research mainly involved understanding, formation and characterization of nanostructures using electron beam microscopy techniques for electronic applications.

Sepideh's main technical fields of expertise include electronics, physics, material science, nanoscience, nanotechnology, automotive and medical devices. Sepideh speaks English, Swedish and Farsi.

In 2024, Sepideh has been named a Rising Star by Managing IP for the first time.
